Hougen Copperhead™ Carbide Tip Cutters - Metric Cutter Diameter

Thank you for shopping with us!

Copperhead™ Carbide Tip Cutters offer extended tool life on abrasive, tough-to-cut materials and in high-speed mag drills such as the HMD508. The unique Hougen design includes a special tooth geometry that helps maintain a better chip flow than other brands. Copperhead Cutters are available in fractional & metric sizes with the Fusion2™ shank. The shank allows for cutters to be used in Hougen drills and competitive models utilizing the one-touch arbor system. The screw arbor system can result in up to 2x the tool life as tool-less systems.
