Amana Tool Classical Molding Carbide-Tipped 2-Flute w/Ball Bearing Guide

Thank you for shopping with us! A double quarter-round profile is produced by this tool. The depth-of-cut setting determines whether or not a fillet is formed at the top. Switching from the standard pilot bearing to the optional 3/8" bearing introduces a fillet at the bottom of the profile. Use in a handheld or table-mounted router. **A** Standard 1/2" bearing #47706 (included) **B** Optional 3/8" bearing #47702 (order separately)

- A** Standard 1/2" bearing #47706 (included).
- B** Optional 3/8" bearing #47702 (order separately).

Item #	Manufacturer	Diameter	Cut Height, Length, or Width	Flute	Overall Length	Radius	Shank	Bearing(s)	Price
--------	--------------	----------	------------------------------	-------	----------------	--------	-------	------------	-------
