Amana Tool 9° Angle Dovetail Carbide-Tipped Bits

Thank you for shopping with us! MAKE CLEAN & BEAUTIFUL DOVETAIL JOINTS! The dovetail joint is the strongest construction method for drawers, boxes, chests, and fine casework. Amana Tool® designs the bits needed by many router dovetail jigs that require cutting half-blind and through dovetails. We carry the bits for name-brand dovetail jigs, including Leigh®, Keller™, Omnijig®, and Incra®. The 9° dovetail bit is

used for certain operations with the Incra® dovetail system. #45822 is solid carbide.
