Amana Tool Finger Joint Carbide-Tipped Bit

Thank you for shopping with us! Cut interlocking fingers for strong end-to-end or edge-to-edge glueups with this simple bit. Setup is fast. Center the cut profile on the stock, then cut, alternating the orientation of the show face—up when cutting one workpiece and down when cutting its mate. Use in all CNC and table-mounted routers. For best results, use in a router table.

Item #	Manufacturer	Diameter	B1	Cut Height, Length, or Width	Overall Length	Shank	Angle	Price
45796	Amana Tool	1 3/8 in	21/64 in	1 9/16 in	3 in	1/2 in	14 deg	\$85.54
