Amana Tool Rabbet Carbide-Tipped 2-Flute w/Ball Bearing Guide

Thank you for shopping with us! A basic rabbeting bit. Cuts 3/8" wide and up to 1/2" deep. Switch to one of four optional ball bearing guides to alter the width of cut. Use in a handheld or table-mounted router. Includes miniature: The smallest guide bearings in the industry!

If you've often wanted to trim and shape small details in tight corners but were disappointed by the scoring and burning left behind by solid pilot bits, we've got what you've been looking for: eight of the most commonly used profiles in miniature sizes—complete with miniature ball bearing guides. These bits are perfect for signs, lettering, small boxes, and musical instruments; essentially any project that requires tiny flush trimming or shaping. Don't let the small size fool you; these bits are precisely machined and carbide-tipped. A two-flute bit is a good general-purpose choice, providing fast cuts and good finishes. Excellent for template work. -3/16" bearings stay cool, unlike brass pilots -Rout the most intricate contours for delicate projects -Perfect for crafters & hobbyists - Lettering/Signmaking -Fine musical instruments

Item #	Manufacturer	Diameter	Cut Depth	Cut Height, Length, or Width	Bearing(s)	Flute	Knives	Note	Overall Length	Shank	Price
