Amana Tool CNC Insert Carbide Engraving Sets (AMS Series)

Thank you for shopping with us! The 8-piece In-Groove collection contains industrial insert solid carbide knives that can quickly and easily be interchanged while the tool body remains mounted in the CNC machine, minimizing downtime and helping maintain consistent cutting accuracy. Solid carbide Insert Knives produce crisp, clean cuts and last at least twice as long as comparable solid carbide bits. CNC tool bodies are expertly balanced for virtually no vibration to provide superior cutting results.

Item #	Manufacturer	Diameter	Includes	Overall Length	Part Descp.	Shank	Price
