Whitelid Machine Standard Spiral Bits Downcut - Two Flute

Thank you for shopping with us!

Whitelid Machine spiral bits provide a shear cutting edge that leaves a smoother cut than standard router bits. The downcut spiral design provides the best top surface edges, ejecting chips away from the router when routing through material. This design also decreases the tendency to lift thin/small work pieces during CNC routing.

Solid Carbide is not guaranteed against breakage.

Item #	Diameter	Cut Height, Length, or Width	Flute Geometry	Flute	Overall Length	Shank	Price
RD1600	1/8 in	1/2 in	Downcut	2	2 in	1/4 in	\$21.96
