Freud Ultimate Plywood & Melamine Blades: LU80R Series

Thank you for shopping with us!

Application: Flawless Finish in Veneered Plywood, Melamine, Laminates for Virtually Chip-Free Cuts The LU80 saw blade provides flawless, chip-free edges in veneered plywoods, fine moldings, melamine, laminates, and crosscuts in solid woods. Using advanced technology, Freud developed this line of saw blades that features laser-cut, anti-vibration slots that practically eliminate the vibrations that resonate in standard blades. The combination of High ATB tooth design and anti-vibration slots make these blades the ultimate finish blades. The result is a cut so smooth, it eliminates the need for a stabilizer or a scoring blade! Perma-Shield™ Non-Stick Coating reduces blade drag, protects the blade from corrosion and pitch buildup. Ideal For: Flawless Finish In Veneered Plywood, Chip Board, Melamine & Laminate. Depth of cut (1/4" min to 1-5/8" max). **Tip:** When you need a smooth finish on both sides of plywood or laminate, use a zero clearance insert or blade with Hi-ATB teeth.
