Popular Tools Optimizing Saws

Thank you for shopping with us!

Popular Tools has a new line dedicated to optimizing saws such as the Paul™ and Grecon/Weinig™ Machines. The new Popular Tools optimizing saw blades are precision cut, ground, tensioned, and balanced to strict tolerances, which are crucial for straight cuts at high RPMs. The saw body has specially formulated epoxy-filled expansion slots in the body to eliminate noise and vibration. Due to the strenuous running conditions for optimizing saws, we take special care to maintain extremely tight tolerances in manufacturing these blades to deliver the highest quality.
