### Item #0754102, Hougen Model 75004PR Electro-Hydraulic Hole Puncher

**\$3,960.00**

Thank you for shopping with us! Now with Power Retract! Portable electro-hydraulic punch with 16.9 tons of punching pressure can quickly punch through 3/8" material in 2.5 seconds. Easily confirm the hole position with the jog down feature. Punch automatically returns to the starting position after the punching cycle is complete. If punch ever resists returning to the home position, squeeze the trigger for power feed return. The 75004PR is a self-contained unit that only requires electrical power. There is no separate hydraulics or power packs required. Includes: work stand, foot switch, 9/16" punch & die, tool kit and carrying case. Hougen-Ogura Punches are designed for mild & structural steel, but can be used in other materials. Using in stainless or other materials significantly reduces the capacity.

#### 75004PR SPECIFICATIONS Part No. 0754102 - 115V

Pressure (Tons)	16.9
Approx. Punching Speed	2.5 secs
Max Hole Size - Round	25/32" - (20mm)
