Item #10081-30, Amana Timberline Ti-Cut™ 10 in Fine Crosscut & Cutoff Saw Blades \$31.57

Thank you for shopping with us!
These blades are ideal for cutting material with fragile surface layers, like veneers and laminates. The triple chip grind high tooth count yields smooth finishes. The 10° hook angle provides effortless feeding.

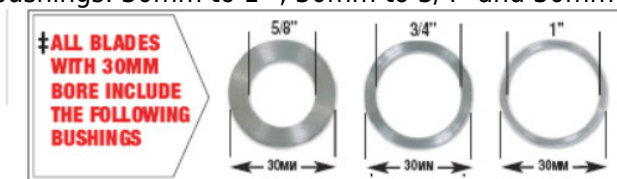

- Large (Micro-Grain) Carbide Tipped Teeth
- Hardened Bodies to avoid warpage
- Expansion Slots to dissipate heat
- Thin kerf for ease of cut and minimal waste

Product Information: • TC Grind • Thin Kerf • Carbide-Tipped • Professional Quality • Clamshell Packaged

Designed to cut: Veneered Plywood, Laminate, Melamine and Chip Board

Blades with 30mm bore include the following reduction bushings: 30mm to 1" , 30mm to 3/4" and 30mm to 5/8"
