Item #105557, Vortex Tool 70mm Length - Carbide-Tipped 7/32" x 70mm Brad Point Drill

\$13.47

Thank you for shopping with us!

Brad point dowel drills are used for drilling blind holes in solid wood, wood composites, or plastic laminated materials. Brad point drills will provide a clean entrance cut, but may cause some blow-out on the backside of the material on thru cuts. These bits have a 10mm shank and are designed to run in your drill blank, but can also be used in your CNC spindle.

SPECIFICATIONS

Diameter	7/32 in
Length	70 mm
