### Item #2640, Whiteside Machine 1/4"SH, 1/2"CD, 1/4"CL Laminate Flush Trimmer with Euro Square Bearing \$26.77

Thank you for shopping with us!

*Here's a Square Deal!*

A quality Whiteside Trim Bit with the exclusive Euro Square Bearing. *How does it work?* The square bearing stops spinning as soon as it touches the workpiece. Then the side of the square simply slides along the workpiece edge. Compare this to a regular bearing that rolls along the edge—building up more glue and residue with every revolution. Plus, the square is made from non-stick Teflon® so it wipes clean easily and it won't mark your workpiece. If you cut laminates, you need to try this bit.

These bits are designed with a slight taper on the cutting diameter. This allows up or down adjustment to achieve an exact blend—even after sharpening.

Replace the standard 1/2" B3 bearing found on most of our Edge Form bits with the **B3SQ** square bearing if residue build-up on the bearing or marring of the workpiece is a problem.

Recommended for solid surface applications. **B3SQ** is a 1/2" square. **B8SQ** is a 3/4" square. Both are standard 3/16" inside diameter.

## SPECIFICATIONS

<b>Manufacturer</b>	Whiteside Machine
<b>Diameter</b>	1/2 in cutting diameter
<b>Cut Height, Length, or Width</b>	1/4 in cutting length
<b>Bearing(s)</b>	B3SQ Square Bearing
<b>Material</b>	Natural woods, composite woods, laminates, hard plastics
<b>Overall Length</b>	1 5/8 in
<b>RPM</b>	16,000-18,000
<b>Shank</b>	1/4 in
