### Item #350-40, Amana Professional Quality Convex Edging Router Bit \$35.74

Thank you for shopping with us! Cuts a shallow arc—the fingernail shape—rather than a full 180-degree roundover. Like the bullnose radius bit, it has short flats above and below the cutter arc, which produces fillets on stock thicker than 7/8". Must be used with an edge guide on handheld routers or the fence on a router table. 1/2" Shank 2 Flute Professional Quality Carbide-Tipped
