Item #41426, Amana Tool Super Plunge™ with Center Carbide Tip 1/2" x 2" x 1/2" Shank, 2-Flute \$38.85

Thank you for shopping with us!

In choosing a straight bit for any application, always select one with the shortest cutting edges and the shortest overall length that will reach the required cut depth. Excessive length intensifies deflection and vibration, which degrades cut quality and leads to tool breakage.

This bit has a specially designed carbide center tip to enhance the speed of plunge cuts. At the same time, it extends the life of the cutting edges by reducing the stress of plunge cuts on their tips. Ideal for mortising and other plunging operations.

Center Carbide Tip
