Item #42-310, Freud Downshear Helix Flush Trim Bits \$36.29

Thank you for shopping with us!

Application: Trimming laminate countertops and for pattern work

- Downshear cutting angle produces a slicing action for chip-free, splinter-free cuts on the top surface of laminates and veneers.
- The shear action also delivers easier, smooth cuts in thick materials.
- The 3/4" diameter body and full 1" or 2" cutting length provides the stability and cutting capacity for thick stock or for routing multiple parts with a template.
- Cuts all composition materials, plywoods, hardwoods, and softwoods.
- Use on portable or table-mounted routers for template work.

42-310

-#42-310 includes flush bearing design with no protruding screw
