Item #45184, Amana Tool Carbide-Tipped Mortising 1/2 Dia x 1/2 x 1/2 Inch Shank \$19.20

Thank you for shopping with us! Cutting mortises for hinges and locks can be challenging: the mortise depth must be accurate for smooth operation and the edges must be sharp for a clean, professional installation. These mortise bits make hardware installation a snap. The large gullet (see images) between the two flutes quickly clears chips away and the cutter geometry creates a crisp outline for a perfect fit. Note: A proper mortising bit should have a large gullet (as shown in the image below) between the two flutes. This allows greater chip clearance and removal.

SPECIFICATIONS

Manufacturer	Amana Tool
Diameter	1/2 in
Cut Height, Length, or Width	1/2 in
Flute	2
Overall Length	2 3/8 in
Shank	1/2 in
