Item #45302, Amana Tool Topmount Router European Type Carbide-Tipped Single Flute Straight Plunge High Production 3/8 Dia x 1 Inch x 1/2 Shank

\$21.26

Thank you for shopping with us! For sink cut-outs and to prepare countertop for topmount installation of sink or bowl. Among others, can be used for Corian® sink and bowl numbers: 830A, 825RA, 852LA, and 854RA. In choosing a straight bit for any application, always select one with the shortest cutting edges and the shortest overall length that will reach the required cut depth. Excessive length intensifies deflection and vibration, which degrades cut quality and leads to tool breakage. A single-flute bit should be used where cut speed is more important than cut finish. Making one cut per revolution is faster than making two or three. Improved chip clearance is possible with a single flute configuration. The result: fast cuts.

AMAX
HARDER CARBIDE
FOR EXTENDED LIFE

AMAX Extended Life

Features: 200% longer life time even when working with abrasive materials Superior geometric design Advanced grinding technology that improves the carbides' resistance to wear Super clean cuts
