Item #45850, Amana Tool 14° Dovetail Carbide-Tipped 1/2" D x 1/2" CH x 1/4" Shk 2-Flute w/Upper Ball Bearings \$37.88

Thank you for shopping with us! Amana Tool 14° Dovetail Carbide-Tipped 1/2" D x 1/2" CH x 1/4" Shk 2-Flute w/Upper Ball Bearings MAKE CLEAN & BEAUTIFUL DOVETAIL JOINTS! The dovetail joint is the strongest construction method for drawers, boxes, chests, and fine casework. Amana Tool® designs the bits needed by many router dovetail jigs that require cutting half-blind and through dovetails. We carry the bits for name-brand dovetail jigs, including Leigh®, Keller™, Omnijig®, and Incra®. This dovetail bit has a shank-mounted ball bearing guide for routing dovetail slots following a template and pattern routing. The template must be mounted between the workpiece and the router. With a handheld router, the template must be on top of the workpiece. With a table-mounted router, the template must be underneath the workpiece.

SPECIFICATIONS

Manufacturer	Amana Tool
Diameter	1/2 in
Cut Height, Length, or Width	1/2 in
Flute	2 w/Bearing
Replacement Parts	Collar #47724
Bearing(s)	47701
