SPEKTRA
EXTREME TOOL LIFE COATING

Item #46010-K, Amana Tool CNC Solid Carbide Spektra™ Extreme Tool Life Coated Compression Spiral 3/8" Dia x 1 1/8" x 3/8" Shank 3-Flute **\$102.68**

Thank you for shopping with us!

Special unique carbide for longer lifetime in abrasive material. Designed for CNC applications requiring high feed rates and a clean finish. Particularly suitable for double-sided melamine or laminated material. Flawless compression cuts.

Our Spektra™ bits feature a nAco® nanocomposite coating with an extreme nanohardness and heat resistance. With a brilliant distinctively-tinted coloring, nAco® provides additional improvements in four critical aspects of router tooling:

- nAco® coating is a micro-thin ceramic coating that enables the tool's cutting edge to retain crucial sharpness and lubricity. This provides longevity and produces cutting results of the highest quality.
- Coating prevents high heat and oxidation, which is detrimental to cutting tool performance.
- Multi-colored hues, while attractive, will dissipate upon use and yet coating will remain fully effective.
- nAco® offers approximately 4,500 Vickers for impressive solid hardness on cutting areas of the tool, for an increase up to 2.5 times compared to uncoated bits.

Note: Blue based color dissipates immediately upon use. nAco® nanocomposite coating will not wear off.

3-Flute for super smooth cuts.

Excellent for cutting: CFRP, Double-Sided Melamine, Laminate, Melamine Particle Board, MDF, Oriented Strand Board (OSB)*, Veneered Plywood, Wood

*Oriented Strand Board is an engineered wood particle board.

EXTREME TOOL LIFE COATING

SPECIFICATIONS

Manufacturer	Amana Tool
Diameter	3/8 in
Cut Height, Length, or Width	1 1/8 in
B1	9mm
Flute	3
Overall Length	3 in
Shank	3/8 in
Pack Quantity	1
