**Item #46015-K, Amana Tool CNC Solid Carbide Spektra™
 Extreme Tool Life Coated Compression Spiral 3 Flute x 1/8 Dia x
 13/16 x 1/8 Shank
 \$63.81**

Thank you for shopping with us! Special unique carbide for longer lifetime in abrasive material. Designed for CNC applications requiring high feed rates and a clean finish. Particularly suitable for double-sided melamine or laminated material. Flawless compression cuts. Our Spektra™ bits feature a nACo® nanocomposite coating with an extreme nanohardness and heat resistance. With a brilliant distinctively-tinted coloring, nACo® provides additional improvements in four critical aspects of router tooling: -nACo® coating is a micro-thin ceramic coating that enables the tool's cutting edge to retain crucial sharpness and lubricity. This provides longevity and produces cutting results of the highest quality. -Coating prevents high heat and oxidation, which is detrimental to cutting tool performance. - Multi-colored hues, while attractive, will dissipate upon use and yet coating will remain fully effective. -nACo® offers approximately 4,500 Vickers for impressive solid hardness on cutting areas of the tool, for an increase up to 2.5 times compared to uncoated bits. Note: Blue based color dissipates immediately upon use. nACo® nanocomposite coating will not wear off. Excellent for cutting: CFRP, Double-Sided Melamine, Laminate, Melamine Particle Board, MDF, Oriented Strand Board (OSB)*, Veneered Plywood, Wood *Oriented Strand Board is an engineered wood particle board.

SPECIFICATIONS

| | |
|-------------------------------------|------------|
| Manufacturer | Amana Tool |
| Diameter | 1/8 in |
| Cut Height, Length, or Width | 13/16 in |
| B1 | 7/31 in |
| Flute | 3 |
| Overall Length | 2 1/2 in |
| Shank | 1/8 in |
