### **Item #47170, Amana Tool Carbide-Tipped Flush Trim Cutter Assembly 1/2" Dia x 1/2" x 1/4" Shank (Replaces Ocemco #TA-150) \$25.20**

Thank you for shopping with us! -No resharpening -Interlocking hex design -Economical alternative to brazed bits Cut straight and flush with each and every cut without ever resharpening your bits. E-Z Change™ router bits are an economical alternative to standard router bits. They feature replaceable head carbide-tipped cutters, saving you money by replacing only the cutters instead of the entire tool when the knives become dull. You won't need a second bit while yours is in the sharpening shop; instead, just change the cutters. You won't even lose your set-up because the E-Z Change™ cutters can be replaced with the bit in the router collet. The interlocking hex design guarantees that the cutting surfaces will not slip during use. Excellent for Cutting: Laminates, MDF, Plywood, Wood, Acrylic Replacement Parts: 1/4" Shank (screw #67096 & washer #67082 included): 47624 Bearing #47706
