### Item #47728, Amana Tool Ultra-Glide™ High Performance Ball Bearing 5/16 Overall Dia x 7/8 Inner Dia

**\$14.56**

Thank you for shopping with us!

Using the same quality standards as our regular steel bearings, these Ultra-Glide™ bearing assemblies feature satin-smooth Delrin® sleeves. Delrin® is an industrial synthetic plastic material similar to nylon, and will leave no marks on the material being cut. Applications include solid-surface materials such as Gibraltar®, Corian®, Surell®, Fountainhead®, Plexiglas® & other clear acrylics, and plastic laminates. Not recommended for regular wood applications due to a higher wear factor.

*Item numbers 47709, 47725, 47726, 47731, and 47733 include Teflon® dust shields. These bearings provide a better seal to increase bearing life while routing materials that generate very fine dust particles (such as solid surface).*

### SPECIFICATIONS

<b>Manufacturer</b>	Amana Tool
<b>Application</b>	Slot cutter assemblies: 3/8 in depth of cut, 53610
<b>Cut Depth</b>	3/8 in
<b>Inside Diameter</b>	5/16 in
