Item #47731, Amana Tool Ultra-Glide™ High Performance Ball Bearing 7/8 Overall Dia x 1/4 Inner Dia x 10 Deg Taper

\$25.50

Thank you for shopping with us!

Using the same quality standards as our regular steel bearings, these Ultra-Glide™ bearing assemblies feature satin-smooth Delrin® sleeves. Delrin® is an industrial synthetic plastic material similar to nylon, and will leave no marks on the material being cut. Applications include solid-surface materials such as Gibraltar®, Corian®, Surell®, Fountainhead®, Plexiglas® & other clear acrylics, and plastic laminates. Not recommended for regular wood applications due to a higher wear factor.

Item number 47731 includes Teflon® dust shields. Provides a better seal to increase bearing life while routing materials that generate very fine dust particles such as solid surface.
