### **Item #49545, Amana Tool Corner Rounding Carbide-Tipped 1 3/8" Dia x 3/8" Radius x 5/8" x 1/2" Shank 4-Flute w/Ball Bearing Guide**

**\$58.80**

Thank you for shopping with us! The basic edge-forming bit, the corner-rounding bit rounds an edge to a given radius. The tool is shouldered to cut a fillet. The cut can be used to ease edges, as a simple profile, or as part of a complex one. Also known as a roundover, rounding over, and quarter-round. If a smaller pilot bearing is used, a second shoulder can be produced, in effect making the bit a beading bit. Four Flute design for super smooth finish.
