Item #512961-30, Amana Tool Carbide-Tipped Aluminum & Non-Ferrous Metals 12 Inch Dia x 96T TCG, -6 Deg, 30mm Bore - For Thin Material

\$119.10

Thank you for shopping with us!
For Thin Material (under 0.25")

Ideal for cutting aluminum and non-ferrous metal bars such as copper, brass, bronze, and lead. It is also good for cutting extrusions and profiles. The negative hook angle (-6°), triple-chip grind, and thick plate combine to produce a superior finish. The blade can also be used to cut other "difficult" materials such as plastic, PVC tubing, fiberglass, and ACM such as Alucobond®, Dibond®, and Durabond. Use a coolant or blade wax and clamp down the workpiece when cutting non-ferrous metals.

Warning: Never attempt to cut ferrous metals (steel, iron, etc.) with these saw blades!

Note: P.H. denotes pin-hole configuration, if applicable. Example: 2/10/60 = 2 @ 10mm dia on 60mm circle.

SPECIFICATIONS

| | |
|---------------------|----------------|
| Manufacturer | Amana Tool |
| Bore | 30 mm |
| Diameter | 12 in (300 mm) |
| Grind | TCG |

SPECIFICATIONS

| | |
|-------------------|-----------------------------------|
