Item #54113, Amana Tool Carbide-Tipped Classical Raised Panel 5/32 Radius x 3-9/16" Dia x 1/2" CH x 1/2" Shank \$127.05

Thank you for shopping with us! Amana Tool Carbide-Tipped Classical Raised Panel 5/32 Radius x 3-9/16" Dia x 1/2" CH x 1/2" Shank Create raised panels for cabinet doors, frame and panel furniture, and architectural paneling with a raised panel bit. The cutter forms a fillet to delineate the raised field, a shaped band around the field, and an integral tongue to fit the panel groove in the frame members. The profile contour and the reveal width varies. All tools have 1/2" shanks. Must be used in a table-mounted 3+ horsepower router and run at reduced speed. Use these bits for panels with curved edges. Multiple passes recommended. Also refer to Architectural Door Router Bits Replacement bearing #47706

SPECIFICATIONS

Manufacturer	Amana Tool
Diameter	3 9/16 in
Bearing(s)	47706, Amana Tool 3/16 ID x 1/2 OD x .195 Thick Steel Ball Bearing Guide
