Thank you for shopping with us!

Amana Tool Classical Molding Carbide-Tipped 1 1/2" Dia x 1/4" Radius x 3/4" CH x 1/2" Shank 2-Flute w/Ball Bearing Guide

A double quarter-round profile is produced by this tool. The depth-of-cut setting determines whether or not a fillet is formed at the top. Switching from the standard pilot bearing to the optional 3/8" bearing introduces a fillet at the bottom of the profile. Use in a handheld or table-mounted router.

A Standard 1/2" bearing #47706 (included)

B Optional 3/8" bearing #47702 (order separately)
