Item #54312, Amana Tool Carbide-Tipped Tambour # 2 - 5/64 Radius x 1/2 Dia x 1/2 Inch Shank Part of Set #54314 \$98.85

Thank you for shopping with us! Amana Tool Carbide-Tipped Tambour # 2 - 5/64 Radius x 1/2 Dia x 1/2 Inch Shank Part of Set #54314 -Unique 3-Piece router bit set with antique solid brass knob -Shapes tambours that interlock with a ball and socket joint -Unlike ordinary tambours, there is *no need for cloth, glue, or wires* -Each slat measures

approximately 1/2" x 1" -Minimum radius for the tambour door is 3 1/2" Easy to set up and use. The first bit (#54310) shapes the face of the stock; cutting from each face completes the contour of the ball. Afterwards, a second bit (#54312) is used to shape the socket. A third bit in the set (#49498) is used to shape the end of the tambour, which provides a place to mount a pull for opening the completed tambour. Assembly is easy. Simply slide the slats together to create a beautiful, flexible tambour that's perfect for creating your own roll up desk, breadbox, kitchen countertop storage area, and more.

Recommended Maximum Width for Tambour Strips: Do not exceed 5ft or 60in in length, otherwise they may sag under their own weight. Refer to instruction manual included with 54314. Also refer to PDF's to the right, and the video below. US Patent No. 7,810,532
