Thank you for shopping with us!

This blade is ideal for cutting materials with fragile surface layers, such as veneers and laminates. High tooth count yields smooth finishes. The 10° hook angle provides effortless feeding. The triple-chip tooth opens a narrow kerf, and the raker widens it.

#### Benefits of Electro-Blu™ Coating

Reduces resin accumulation and heat build-up. Tips stay sharper longer resulting in extended blade life. Applied by using an electrostatic bonding process.

**Warning:** Before use, read saw blade safety guidelines in [Amana's catalog](#).
