Item #614721-30, Amana Tool Carbide-Tipped Heavy Duty General Purpose 14 Inch Dia x 72T TCG, 10°, 30mm Bore **\$187.95**

Thank you for shopping with us!
While this blade handles general trimming and crosscutting of hardwood and softwood, plywood and composition materials, it excels at cutting single- or double-sided plastic laminated material. It leaves a smooth clean chip-free finish on the top and bottom edges. The blades in this series feature a high tooth count, triple-chip grind, and a 10° hook angle (with the exception of #694001, which has a 15° hook angle) for a successful compromise between feed effort and cut finish.

Warning: Before use, read saw blade safety guidelines in [Amana's catalog](#).

SPECIFICATIONS

Diameter	14 in (350 mm)
Bore	30 mm
Grind	TCG
Kerf	0.137
Note	P.H. = pin-hole configuration. Example: 2/10/60 = 2 @ 10mm dia on 60mm circle.
