### Item #616109, Amana Tool Carbide-Tipped Solid Surface 16 Inch Dia x 108T MTC, 0 Deg, 1" Bore \$317.25

Thank you for shopping with us! This blade is designed for cutting plastic laminate, Plexiglas®, and solid surface materials such as Dupont Corian®, Wilsonart®, Gibraltar®, and Fountainhead®. The triple-chip grind is especially configured to leave a swirl-free cut in solid surface materials. Thick, stable plate reduces vibration that degrades the cut and shortens tool life. The blade is suitable for a variety of saw configurations. The 0° hook angle virtually eliminates self-feeding when used with a radial arm saw.
