Item #66-100, Freud Bevel Trim Bit - Solid Carbide

\$12.24

Application: Cutting bevels in plastic laminates for a clean, finished edge -The 41 series bits provide a range of bevels from 8° to 45°, and feature a ball bearing guide. -The 66-100 solid carbide bit creates a 7-degree bevel, and includes a self-piloting feature that eliminates the expense and upkeep of a ball bearing assembly. -Cuts all plastic laminates. -Use on hand-held routers, table-mounted portable routers, and laminate trimmers for trimming plastic laminate.

66-100
