Thank you for shopping with us!
Heavy-duty construction for drilling in tougher materials • Manufactured from premium high-speed steel • 135° split point is self-centering for reducing thrust and easier penetration • Provides exceptional oxidation resistance and extreme hardness • TiCN is harder and has a lower coefficient of friction than TiN coating • Recommended where moderate temperatures are generated • Manufactured to NAS 907B aerospace specification

TiCN Coating - Titanium carbide nitride (TiCN) coating raises cutting surface hardness, greatly increasing resistance to wear.
