Mastercut 4
Flute Upcut
Fiberglass
Router
\$78.46**

Thank you for shopping with us!
Material Finish-Top: Poor
Material Finish-Bottom: Excellent

Upcut routers are used when a good bottom finish is desired on the material. Chips flow in an upward direction.

Endmill Points are most often found on 3 and 4 flute routers. They are good for achieving a smooth finish on a flat bottom surface, and are commonly used in the plastic routing industry.
