Item #99-038, Freud Raised Panel " V" Joint Bit \$115.77

Thank you for shopping with us! Application: Produces strong, attractive glue joint raised panels -Mating surfaces that are at an angle, not vertical, so the dark lines like those created by standard finger joint bits are not visible. -Bit does not have to be centered in the wood. -Simply raise or lower the bit 3/32" to route the mating edge. -Cuts all composition materials, plywood, hardwoods, and softwoods. -Use on table-mounted portable routers.
