Item #AMS-151, Amana AMS Series 8-Pc V-Groove for Double Edge Folding Aluminum Composite Material (ACM) Panels 1/4" Shank Router Bit Collection

\$403.10

Thank you for shopping with us!

Designed for shaping Aluminum Composite (sandwich) Materials (ACM) with flat bottom V-grooves. Routing V-shaped grooves, whereby the aluminum cover and a part of the polyethylene core is removed, allows folding/creasing the remaining material by hand. Ideal for wall panel fabrication. ACM is widely used for cladding many diverse exterior and interior applications such as office buildings, hospitals, convention centers, airports, and hotels. The long lasting durability of the material makes it an excellent choice for buildings, signage, displays, etc.

For scoring aluminum composite materials including:

Aluminum, Clay, Zinc, Wood Composite Panels
Aluminum Composite Material (ACM)
Aluminum Composite Panel (ACP)
ALPOLIC®
Composite Material (CCM)
Alucobond®
Alupanel®
Dibond®
Durabond
e-panel™
Etabond®
Phenolics
Plastic/Acrylic
Plexiglas®
Titanium Composite Material (TCM)
Wood

SPECIFICATIONS

Manufacturer Amana Tool

Includes Stored in a solid wood showcase storage box with a Plexiglas clear lid

Shank 1/4 in

Type V-Groove for Double Edge Folding Aluminum Composite Material (ACM) Panels Router Bit Collection - Solid Carbide, Carbide-Tipped, Insert Carbide

SPECIFICATIONS

No. of Pieces 8
