Item #AMS-551, Amana Tool 4-Pc Carbide-Tipped Corner Rounding & Beading Router Bit Set, 1/4 Inch Shank

\$123.53

Thank you for shopping with us! A basic edge-forming bit, the corner-rounding bit rounds an edge to a given radius. The tool is shouldered to cut a fillet. The cut can be used to ease edges, as a simple profile, or as part of a complex one. If a smaller pilot bearing is used, a second shoulder can be produced, in effect making the bit a beading bit. Stored in a solid wood showcase storage box with a Plexiglas® clear lid. Includes full color booklet.
