### Item #BURS-220, Amana Tool Solid Carbide Pointed Cone Shape 1/8" Dia, 12° Angle, 1/8" Shank Double Cut SM Burr Bit for Die-Grinders

**\$6.38**

Thank you for shopping with us! **Double Cut (DC)** burrs utilize a cross flute of exactly half the number of standard flutes in an opposing helix. Benefits include rapid removal of a broad range of materials combined with excellent operator control. It does this by incorporating a cutting rake angle that gives great "bite" into the material, and yet is not so aggressive that the operator fatigues quickly after using it in a hand piece. A DC flute geometry gives better performance in low RPM applications, but still performs well at high RPMs. **Applications:** To be used with air or electricity-driven hand die-grinder with a typical collet mechanism or knee mill with an air-driven spindle speeder such as an Air Turbine product. An air speeder can bump spindle. (Carbide brazed to steel shank.) Warning: Not to be used in conventional routers. Excellent for cutting: - Aluminum -Brass -Bronze -Copper -Cast Iron -Steel: 40-55rc -Steel: 55-60rc -Steel: Carbon -Steel: Nickel -Chrome -Stainless Steel -Steel Weldments -Titanium

#### SPECIFICATIONS

<b>Cut Height, Length, or Width</b>	11/32 in
<b>Manufacturer</b>	Amana Tool
<b>Note</b>	Warning: Not to be used in conventional routers.
<b>Overall Length</b>	1 1/2 in
<b>Shank</b>	1/8 in
<b>Type</b>	Double Cut/Solid Carbide
<b>Angle</b>	12 deg
<b>Diameter</b>	1/8 in
<b>Style</b>	DC Ref #SM-41DC
