Item #CT18205, Everlast 18" Diameter 120-Tooth 1" Bore -2° Hook .134 Plate 0.175 Kerf Countertop Saw - TC45 **\$523.58**

Thank you for shopping with us! .

Designed to give the highest quality, smoothest chip-free cuts on laminated post form countertops with backsplash. Ideally suited for post form countertop machines such as Midwest Automation and Edgetech.

Modified Triple Chip Grind - TC45 - This design starts with TCG configuration, but the STR (raker) tooth has small 45 degree chamfer. The addition of this chamfer, along with special clearances, provides the best possible finish on double face laminate and solid surface materials. This design provides good service life with excellent surface finish on table saws and radial arm saws.
