CUTS **Item #D0424X, Diablo Tools 4-1/2 in x 24 Tooth Framing Trim Saw Blade** **\$13.83**

Thank you for shopping with us! Diablo's 4-1/2" Cordless Framing blade is ideal for general construction applications, including fast, efficient ripping and crosscutting. Diablo's blade cuts rough framing lumber, high quality finish lumber, plywood, OSB, and hardboard siding with the smoothest, fastest, and most accurate cut. The thin kerf design requires less cutting power from the user and the saw for better control over the cut. Diablo's unique design, extra-tough steel plate and proprietary carbide tips deliver longer life—and frames more houses—than other framing blades. TiCo Hi-Density Carbide specifically designed for each application to provide maximum performance and cutting life Super thin laser cut kerf gives extremely fast, durable, and clean cuts Laser-cut stabilizer vents trap noise and vibration, keeping the blade cool and reducing blade warp Non-stick Perma-Shield Coating reduces gumming, rusting, and corrosion Laser cut arbor for accurate blade rotation, reducing vibration and premature wear Ideal For: General construction applications, including fast, efficient ripping and crosscutting

SPECIFICATIONS

Manufacturer	Diablo Tools
Arbor	
Diameter	4 1/2 in
Teeth	24 ATB
Hook Angle	20 deg
Kerf	0.059 in
Plate	0.039 in
Application	Framing, Remodeling/Demolition, Siding/Decking
