D0524X

Item #D0524X, Diablo 5-3/8" x 24 Tooth Framing Trim Saw Blade **\$16.15**

Thank you for shopping with us!

Diablo Cordless Framing blade is ideal for general construction applications, including fast, efficient ripping and crosscutting. Diablo's blade cuts rough framing lumber, high quality finish lumber, plywood, OSB, and hardboard siding with the smoothest, fastest and most accurate cut. The thin kerf design requires less cutting power from the user and the saw for better control over the cut. Diablo's unique design, extra-tough steel plate, and proprietary carbide tips deliver longer life—and frames more houses—than other framing blades.

TiCo Hi-Density Carbide specifically designed for each application to provide maximum performance and cutting life

Super thin laser cut kerf gives extremely fast, durable, and clean cuts

Laser-cut stabilizer vents trap noise and vibration, keeping the blade cool and reducing blade warp

Non-stick Perma-Shield® Coating reduces gumming, rusting, and corrosion

Laser cut arbor for accurate blade rotation, reducing vibration and premature wear

Ideal For: General construction applications, including fast, efficient ripping and crosscutting

Suggested Projects: Framing, Remodeling/Demolition

SPECIFICATIONS

Manufacturer	Diablo Tools
Arbor	N/A
Diameter	5 3/8 in
Teeth	24 ATB
Hook Angle	18 deg
Kerf	.049 in

SPECIFICATIONS

Plate 0.039 in

Application Cutting Wood Framing: ideal for General construction applications
