CUTS Item #D0604DHA, Diablo 6-1/2 in. x 4-Tooth Fiber Cement HardieBlade™ - 5 Pk Bulk \$271.31

Thank you for shopping with us!

Diablo HardieBlade™ is the only approved PCD (Polycrystalline Diamond) tipped fiber cement blade recommended by James Hardie Building Products. Diablo's co-branded Diablo blade generates up to 5% less respirable dust*, while delivering the longest life in all fiber cement materials. The PCD triple-chip design offers up to 60 times longer cutting life than standard carbide blades. The laser cut thin kerf design gives fast and precise cuts with less dust and waste. The anti-vibration design stabilizes the blade and reduces noise while cutting. Non-Stick Perma-Shield® coating reduces heat.

The only approved James Hardie polycrystalline diamond (PCD) tipped fiber cement saw blade

The PCD triple chip design offers up to 60 times longer cutting life than standard carbide blades

Features a unique, spark-eroded Triple-Chip grind for long life—up to 60 times the life in fiber cement of conventional carbide blades

Perfect for full time use in heavy duty applications such as cutting multiple pieces of fiber cement board.

Ideal for: All fiber cement products

Suggested Projects: Remodeling/Demolition, Siding/Decking, Electrical & Plumbing

***Note: Dust generation does not necessarily correlate directly to exposure risk.**

Super Thin Laser Cut Kerf
 New super thin kerf provides ease of feed, accuracy and maximized performance.

Perma-SHIELD Coating
 Non-stick, Aluminum Alloy Coating shields the blade against heat, gumming and corrosion. Ideal for all woods including decking.

TiCo Hi-Density Carbide
 Provides a controlled carbide wear that stays sharper up to 4 times longer than standard carbide.

Hard-Core Steel Plate
 Premium steel, hardened to HRC 48, delivers robust performance and durability.

Laser Cut Stabilizer Vents
 Traps noise and vibration and stabilizes the blade, producing smoother, cleaner, quieter cuts.

Tri-Metal Shock Resistant Brazing
 Tri-metal brazing system allows carbide tips to withstand extreme impact for maximum durability.

Laser Cut Heat Expansion Slots
 Allows blade to expand due to heat build up, thus keeping the cut true and straight.

Laser Cut Arbor
 Laser cut arbor for accurate blade rotation reduces vibration and premature wear.

Precision Tensioning
 Computer controlled process keeps the blade flat and true, while maximizing blade life, precision and performance.

Lifetime Guarantee
 (see Manufacturer for details)

SPECIFICATIONS

Manufacturer	Diablo Tools
Arbor	5/8 in
Diameter	6 1/2 in
Hook Angle	10 deg
Kerf	.071 in
Plate	.071 in
Teeth	4 TCG (PCD)
Unit Price	\$54.26
Pack Quantity	Bulk 5
