D1050X

Item #D1050X, Diablo 10" x 50 Tooth Combination Circular Saw Blade \$42.34

Thank you for shopping with us!

Diablo's combination blade is ideal for ripping and crosscutting wood & wood composites with the goal of a smooth finish. The best choice for a table saw when one blade is needed for ripping and crosscutting. Each set of 5 teeth is separated by a large gullet. Diablo's large gullet provides the chip removal space required while ripping, and the close grouping of teeth within the set provide the smaller bite size required when crosscutting.

TiCo™ Hi-Density carbide specifically designed for each application to increase performance
Perma-SHIELD® Non-stick Coating protects from heat, gumming, and corrosion
Super thin laser cut kerf for fast, durable, and clean cuts
Tri-metal shock resistant brazing allows carbide tips to withstand extreme impact for maximum durability
Hardened Steel Body—warrants a longer life and sharper cutting edge.

Ideal for: High quality crosscuts and rip cuts in wood, plywood, and melamine

Suggested Projects: Remodeling/Demolition

SPECIFICATIONS	
Manufacturer	Diablo Tools
Arbor	5/8 in
Diameter	10 in
Teeth	50 ATB
Hook Angle	15 deg
Kerf	.098 in
Plate	0.071 in
Application	High quality crosscuts & rip cuts
Unit Price	--
Pack Quantity	1
