Item #D1208DH, Diablo 12" x 8-Tooth (PCD) Fiber Cement HardieBlade™
\$118.13

Thank you for shopping with us!

Diablo HardieBlade™ is the only approved PCD (Polycrystalline Diamond) tipped fiber cement blade recommended by James Hardie Building Products. Diablo's co-branded Diablo blade generates up to 5% less respirable dust*, while delivering the longest life in all fiber cement materials. The PCD triple-chip design offers up to 60 times longer cutting life than standard carbide blades. The laser cut thin kerf design gives fast and precise cuts with less dust and waste. The anti-vibration design stabilizes the blade and reduces noise while cutting. Non-Stick Perma-Shield® coating reduces heat.

The only approved James Hardie polycrystalline diamond (PCD) tipped fiber cement saw blade

The PCD triple chip design offers up to 60 times longer cutting life than standard carbide blades

Features a unique, spark-eroded Triple-Chip grind for long life—up to 60 times the life in fiber cement of conventional carbide blades

Perfect for full time use in heavy duty applications such as cutting multiple pieces of fiber cement board.

Ideal for: Siding, panels, single and stacked cutting in fiber cement product only

Suggested Projects: Remodeling/Demolition, Siding/Decking, Electrical & Plumbing

***Note: Dust generation does not necessarily correlate directly to exposure risk.**

SPARK ERODED TOG
FOR LONG CUTTING LIFE

POLYCRYSTALLINE DIAMOND
FOR 60X CUTTING LIFE

SUPER-THIN KERF
LESS DUST
LASER CUT SAW BLADE

Super Thin Laser Cut Kerf
Narrow super thin kerf provides ease of feed, accuracy and maximized performance.

Perma-SHIELD® Coating
Non-stick, Aluminum Alloy Coating shields the blade against heat, gummying and corrosion. Ideal for all woods including decking.

TiCo™ Hi-Density Carbide
Provides a controlled carbide wear that stays sharper up to 4 times longer than standard carbide.

Hard-Core™ Steel Plate
Premium steel, hardened to HRC 48, delivers robust performance and durability.

Diablo
Cuts material for up to 4 houses.

Others:
Cuts material for up to 1 house.

Laser Cut Stabilizer Vents
Traps noise and vibration and stabilizes the blade, producing smoother, cleaner, quieter cuts.

Tri-Metal Shock Resistant Brazing
Tri-metal brazing system allows carbide tips to withstand extreme impact for maximum durability.

Laser Cut Heat Expansion Slots
Allows blade to expand due to heat build up, thus keeping the cut true and straight.

Laser Cut Arbor
Laser cut arbor for accurate blade rotation reduces vibration and premature wear.

Precision Tensioning
Computer controlled process keeps the blade flat and true, while maximizing blade life, precision and performance.

Lifetime Guarantee
(see Manufacturer for details)

SPECIFICATIONS

Manufacturer	Diablo Tools
Arbor	1 in
Diameter	12 in
Hook Angle	10 deg
Kerf	.087 in
Plate	.063 in
Teeth	8 TCG (PCD)
Unit Price	--
Pack Quantity	1
