D1260X

### Item #D1260X, Diablo 12" x 60 Tooth Combination Saw Blade

**\$48.46**

Thank you for shopping with us!

Diablo's combination blade is ideal for ripping and crosscutting wood & wood composites with the goal of a smooth finish. The best choice for a table saw when one blade is needed for ripping and crosscutting. Each set of 5 teeth is separated by a large gullet. Diablo's large gullet provides the chip removal space required while ripping and the close grouping of teeth within the set provide the smaller bite size required when crosscutting.

TiCo™ Hi-Density carbide specifically designed for each application to increase performance

Perma-SHIELD® Non-stick Coating protects from heat, gumming, and corrosion

Super thin laser cut kerf for fast, durable, and clean cuts

Tri-metal shock resistant brazing allows carbide tips to withstand extreme impact for maximum durability

Hardened Steel Body—warrants a longer life and sharper cutting edge.

Ideal for: High quality crosscuts and rip cuts in wood, plywood, and melamine

Suggested Projects: Remodeling/Demolition
