D1280X

Item #D1280X, Diablo 12" x 80 Tooth Fine Finish Saw Blade

\$64.13

Thank you for shopping with us!

Fine Finish blades let trim crews get the most out of sliding or “chop” style miter saws, as well as jobsite or workshop table saws. The special cutting geometry and high tooth count produce extremely smooth cuts while minimizing “grabbing” or blowout. Diablo's blade is the ideal choice for trim carpenters because it leaves a smooth surface that requires little to no sanding. It's ideal for crosscutting oak, pine, melamine, plywood, and molding.

TiCo™ Hi-Density carbide specifically designed for each application to increase performance

Perma-SHIELD® Non-stick Coating protects from heat, gumming, and corrosion

Super thin laser cut kerf for fast, durable, and clean cuts

Tri-metal shock resistant brazing allows carbide tips to withstand extreme impact for maximum durability

Hardened Steel Body—warrants a longer life and sharper cutting edge

Ideal for: Fine finish crosscuts in hardwoods & softwoods. Chip-free cuts in veneered plywood, melamine, and MDF

Suggested Projects: Trim, Remodeling/Demolition

SPECIFICATIONS	
Manufacturer	Diablo Tools
Arbor	1 in
Diameter	12 in
Teeth	80 Hi-ATB
Hook Angle	15 deg
Kerf	.118 in
Plate	0.087 in
