D1284CD

Item #D1284CD, Diablo TrexBlade 12" x 84 Tooth Composite Decking Miter Saw Blade \$73.78

Thank you for shopping with us! Diablo's TrexBlade is the only recommended composite decking by Trex Company when cutting composite decking materials. These new blades deliver maximum performance and highest quality of finish, making it a 'must-have' tool for both professionals and DIYers planning composite decking projects. Diablo's new saw blade series has a modified triple chip tooth grind design, Perma-SHIELD® non-stick coating, and specific TiCo™ Hi-Density carbide to deliver more efficient and cleaner cuts with no swirl marks, less "gumming" of blade teeth, and longer cutting life. Specially formulated TiCo™ Hi-Density carbide to maximize cutting life in composite decking materials and plastics Modified Triple Chip Grind (MTCG) enables the material to remain cool while cutting—for melt-free cuts Laser cut stabilizer vents keep the blade straight and true for superior quality cuts and no swirl marks Thin Kerf design requires less cutting power, making them ideal for underpowered saws at the jobsite Perma-SHIELD® non-stick coating reduces drag and shields the blade against heat, gumming, and corrosion Ideal For: High quality finish cuts in composite material and cellular PVC Suggested Projects: Siding/Decking

Diablo Ferrous Cutting Blades Vs standard abrasive discs.
 Up to **40X** the life of standard abrasive discs.

- Diablo Steel Demon** vs **Standard Abrasive Discs**
- TRIPLE CHIP GRIND** For Long Life & Durability
- TiCo** HI-DENSITY CARBIDE freud
- TRI-METAL BRAZING** Withstands Extreme Impact

Diablo - Other
Super Thin Laser Cut Kerf
 New super thin kerf provides ease of feed, accuracy and maximized performance.

Non-Stick Perma-SHIELD Coating
 Non-stick, Aluminum Alloy Coating shields the blade against heat, gumming and corrosion. Ideal for all woods including decking.

TiCo™ Hi-Density Carbide
 Provides a controlled carbide wear that stays sharper up to 4 times longer than standard carbide.

Hard-Core™ Steel Plate
 Premium steel, hardened to HRC 48, delivers robust performance and durability.

Diablo Cuts material for up to 4 houses.
Others: Cut material for up to 1 house.

Laser Cut Stabilizer Vents
 Traps noise and vibration and stabilizes the blade; producing smoother, cleaner, quieter cuts.

Tri-Metal Shock Resistant Brazing
 Tri-metal brazing system allows carbide tips to withstand extreme impact for maximum durability.

Laser Cut Heat Expansion Slots
 Allows blade to expand due to heat build up, thus keeping the cut true and straight.

Laser Cut Arbor
 Laser cut arbor for accurate blade rotation reduces vibration and premature wear.

Precision Tensioning
 Computer controlled process keeps the blade flat and true, while maximizing blade life, precision and performance.

Lifetime Guarantee
 (See Manufacturer for details)

SPECIFICATIONS

Application	High quality finish cuts in composite material and cellular PVC
Diameter	12 in

SPECIFICATIONS

Arbor	1 in
Hook Angle	-3 deg
Kerf	.102 in
Teeth	84 MTCG
Plate	.071 in
Manufacturer	Diablo Tools
Pack Quantity	1
