Item #DFL142030, Everlast 14" Diameter 120-Tooth 1" Bore 0.118" Plate 0.148" Kerf Double Face Laminate Saw - 30° ATB \$299.12

Thank you for shopping with us!

The perfect saw for cutting double-sided materials such as Melamine, Kortron, and Veneer. Can be used on radial or table saws.

High Alternate Top Bevel - Hi ATB - Identical configuration to ATB, but each tooth has top bevel of 30 degrees or more. The greater angle can cause faster wearing/dulling. Combine with Micro-5 carbide to increase time between sharpenings. Ideal for cutting of laminated materials. Provides a fine cutting finish with proper sharpening. An Alternate Face Bevel (AFB) can be added to this design upon request.

Note: Available with 5/8" Bore.
