Item #DFL25080, Everlast 250mm 80-Tooth 30mm Bore .087" Plate 0.115" Kerf Double Face Laminate Saws - TC45 - MICRO-5 Tips
\$225.68

Thank you for shopping with us!

The perfect saw for cutting double-sided materials such as Melamine, Kortron, and Veneer. Can be used on radial or table saws. Extra hard MICRO-5 tips last 3-5 times longer than normal carbide. High Alternate Top Bevel - Hi ATB - Identical configuration to ATB, but each tooth has top bevel of 30 degrees or more. The greater angle can cause faster wearing/dulling. Combine with Micro-5 carbide to increase time between sharpenings. Ideal for cutting of laminated materials. Provides a fine cutting finish with proper sharpening. An Alternate Face Bevel (AFB) can be added to this design upon request.
